

— AI VOICE AGENTS FOR BUSINESSES

Answer the call. **Get the work done.**

Give the businesses you support an AI phone employee that answers customers and takes action.

A PHONE EMPLOYEE CONNECTED TO THE BUSINESS

Answers naturally. Acts in the systems they use.

01 / ANSWER

The existing phone line

Customers call the same number.
PhoneIQ handles the conversation.

✓ Keep the phone line

Connections and actions are configured and tested for each business.

02 / UNDERSTAND

The business's information

The voice agent uses the business's
services, hours, and rules to respond.

✓ Keep the business software

03 / TAKE ACTION

The existing business tools

Book appointments, capture orders, or
create work orders in connected
systems.

EVERYDAY CALLS. USEFUL OUTCOMES.

From a customer's request to the next task completed.

Restaurants

Take food and catering orders, make reservations, and capture complaints for follow-up.

Hair salons

Book appointments, offer additional services, and answer questions about hours and availability.

Property managers

Create tenant work orders and call vendors to coordinate repairs.

Illustrative workflows, configured around each business's systems and handoff rules.

MORE CAPACITY FOR THE TEAM

Customers need an answer. Your teams need time.

CAPTURE OPPORTUNITY

Be there when they call

Handle booking, order, and service requests when staff are busy or away from the phone.

REDUCE ROUTINE WORK

Let staff focus

Give recurring questions and phone tasks to the agent, so people can focus on the work that needs them.

KEEP THINGS FAMILIAR

Build on what works

Add phone capacity around existing lines and business systems, with clear rules for human handoff.

A practical way to add customer-service capacity without building a dedicated phone team.

YOU INTRODUCE. PHONEIQ DELIVERS.

A simple offer for the businesses you support.

Extend PhoneIQ to portfolio companies and client businesses
at a **discounted partner rate**.

PhoneIQ handles setup, system connections, and ongoing support.

LET'S START HERE

Introduce a few businesses with a clear phone need.
Agree the rate, prove the workflow, then expand.
